

Free Coloring Sample

3 mandalas to try at home

FREE SAMPLE

Before you start

Printing

Print on A4 or US Letter paper, choosing "Fit to page" in your printer settings. Thicker paper (120-160 g/m²) works best with markers and paints.

Coloring tips

Colored pencils give soft blends, fine-tip markers give bright flat colors. Place a spare sheet under your page when using markers. Start from the center and work outward.

Difficulty

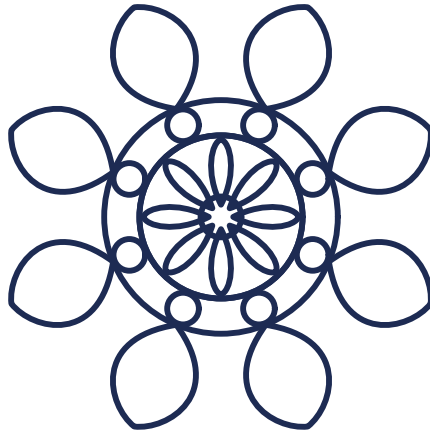

Pages go from simple designs with large areas to detailed designs with fine patterns. Pick the level that matches your mood.

Your license

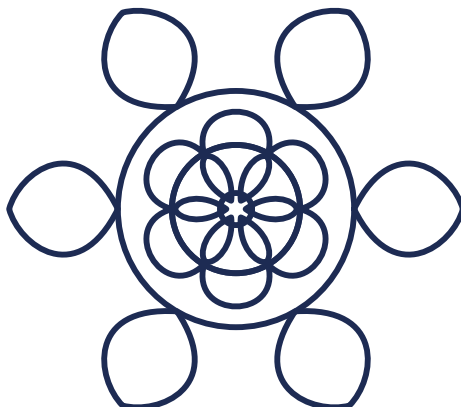

You may print every page as many times as you like for yourself, your family, or your own classroom. Sharing the file, uploading it online or reselling it is not allowed.
